

LONG TERM PAVEMENT PERFORMANCE PROGRAM DIRECTIVE

For The Technical Direction Of The LTPP Program

Program Area: PASCO Distress Interpretation

Directive Number: D-2

Date: February 16, 1994

Supersedes: SHRP D-5

Subject: Quality Assurance of PASCO Data Products

This directive revises the guidelines for Regional review of the PASCO Distress Data set forth in SHRP Directives D-5 dated October 7, 1991 and D-7 dated October 30, 1991. The Regions will still receive the PASCO film with the reports, but no Quality Assurance review will be done. Delivery will also consist of the binary files needed to enter the data into RIMS via the filter program. Upon receipt, the data in the binary files is to be entered into RIMS using the filter program for that purpose.
